THE BULLION EXCHANGE PROJECT

ABSTRACT

This whitepaper abstractly describes a system designed to solve many cryptocurrency exchanges problems to give traders best trading experience. Bullion Exchange Project is a proposed system that uses the blockchain technology and leverages smart contract techniques using Ethereum's core innovation including security and immutability. Bullioncoin seeks to implement smart contracts that can reduce the friction involved with many exchanges difficulties.

INTRODUCTION

Bullioncoin exchange is a decentralized bitcoin and altcoin exchange, fill multiple orders at once, and cancel orders immediately, immediate buy and sell order placement and execution, instant order book update. Bullioncoin is a safe trading exchange, low withdrawal fees, instant withdrawal and excellent fast response from the support. Bullion exchange supports fiat USD and NGN and many cryptocurrencies : BTC, ETH, LTC, DOGE, Bitcoin forks, Ethereum tokens, Iconomi tokens and WAVES.

BULLION EXCHANGE VISION

Bullioncoin exchange is created to solve many investors and cryptocurrency traders problems in cryptocurrency trading, there are many problems associated with many of these exchanges, problems like blocking users account, slow or no response from support, too much maintenance of the exchange and affects many traders, so this project is made to create great trading experience for traders, the problems and the solutions has been highlighted below.

PROBLEMS

Other bitcoin exchanges like Bittrex, Yobit, Bitfinex, EXMO and others has some problems like, slow or no support from the exchange, high withdrawal fee, unawareness of blocking of user account, slow withdrawals. We are going to solve these problem in this new exchange.

Slow response: When a user send a ticket to the support it takes weeks to get response from the support, which affects the user in many ways.

high withdrawal fee: Most of these cryptocurrency exchange charge withdrawal fee of 0.001BTC, some 1% and least among them charge 0.25% withdrawal fee.

Blocking of users account: Exchanges block users account without warning the user, or for no reason which leads to lost of funds.

Slow withdrawal: When a user request for withdrawal, sometimes it takes more than 24 hours to process the withdrawal, sometimes it doesn't withdraw and user will not be able to cancel the request.

Solutions

Fast response: Our users will get fast response from our support, maximum response is within 24 hours, we will also integrate livechat on the exchange

Low withdrawal fee: We will charge 0.15% withdrawal fee from users.

Blocking of users account: We will not tamper with users account, users account are safe with us.

Immediate withdrawal: Withdrawals will be processed immediately, maximum delay time 1-2 hours.
